DETAILED ACTION

1. This office action is in response to application 09/941,396 and amendment filed on 11/28/2005. Claims 1-19 remain pending in the application.

Terminal Disclaimer

2. The terminal disclaimer filed on 11/28/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the patent [6,678,645] has been reviewed and is accepted. The terminal disclaimer has been recorded.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yasuo Muramatsu (38,684) on 2/14/06.

The application has been amended as follows:

Claim 6, line 2, "Claim 1" changed to --Claim 3".

Claim 7, line 2, "Claim 2" changed to --Claim 3".

Claim 16, line 2, "Claim 10" changed to --Claim 13".

Claim 17, line 2, "Claim 12" changed to --Claim 13".

Claim 10, line 6, after "the EDA environment;", insert:

--preparing event based test vectors based on the IC design data produced in the EDA environment;--.

The changes provide proper claim dependency in order to further provide proper claim antecedent basis.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

4. Claims 1-19 are allowed over the prior art of record.
5. The following is an examiner's statement of reasons for allowance: as to claims 1, 9, 10 and 19, the prior art of record does not teach or fairly suggest the limitation of that the timing of the event represents a time difference between two adjacent events in a combination of claim limitations of building prototype silicon based on IC design data, preparing event based test vectors, modifying and feedbacking the modified event based test vectors to EDA environment to modify the IC design data in order to correct design errors in the IC design data as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
